

MX60-7A-B2-FM-PP

1.000 - 10.000 l/h Bag

Typical applications

Plating and process industry

Features

Bag Filtration

- Large dirt holding capacity
- Easy bag change
- Low operating cost

Bag Filtration Plus

- Bag with PP micro fibres
- Oil / grease
- Gel like sludge

Carbon purification

- Efficient removal of organic impurities

Gold, silver recovery

- Recapture metals from rinsing tanks by ion exchange

Options

- Hose connection
- Multiple bag chambers for larger volumes
- SS bag filter systems

MX60-7A-B1-PP

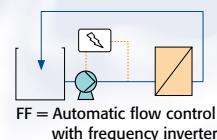

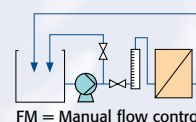

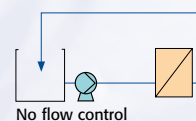

Multi purpose bag filter systems
